Functional Programming with Scala

Project Title: FP final Project

Group Name: 7

IORI, Matéo

IG5_Polytech

November 19, 2024

About the Project

- **Your Specific Contribution:**
  - 2nd Part: Send data into Neo4j and launch commands.

- **Methodology or Approach:**
  - Load raw jsons in the Neo4j project we did in TP.
  - Tried to link them to Neo4J according to the schema we wanted.

Challenges and Learning

- **Challenges Faced and Their Resolutions:**
  - Cannot connect to Neo4j.
  - **Create a new DB and used new connection strings.**
  - Cannot send data in the right format.

- **Learning Gained:**
  - Experience with Neo4j connection with a scala environment.

- **Future Improvements:**
  - Should have managed my time better.
